It can be difficult and uncomfortable to raise a concern about unethical behavior in the workplace. However, it is important because our decisions impact our patients, our community, and our industry.

When you are not comfortable raising the issue through the chain of command, the question may be who should you go to?

The Compliance Helpline is a simple, risk-free way to confidentially report activities that may involve criminal conduct or violation of UPMC policy.

- Can choose to remain anonymous
- Confidential
- Available 24 hours a day, seven days a week
- Can report any concerns or issues, including fraud, abuse and waste in health care
